St Andrew's School, Inverurie

@standrewsinv

Room 6 have been getting into the Christmas spirit. The classroom is decorated, we took a walk into Inverurie to see the Christmas lights and decorations, we look forward to opening the advent calendar every morning and we have been doing lots of fun, festive activities.

Room 8 have had a very musical couple of terms and have been enjoying listening to different styles of music throughout the decades of the 50s to the 90s. The children have had fun dressing up, making crafts from each decade using old records, cassettes, video tapes and vintage décor. For the 50s we looked at Hollywood handprints and made some special ceramics. We have even had some UV discos and painted our hands and faces with UV paint.
